Premium colors available upon request

**• Loose Scrolls**

Loose scrolls are used on a pre-need basis (persons not deceased). The purpose of the loose scroll is to allow information to be added to the memorial at a later date. If one person has deceased at the time of ordering the memorial, often that scroll would be uni-cast to the memorial background, and you would choose a loose scroll for the non deceased person, so that information can be added at a later time. Please note: there are additional charges for loose scrolls.

**• UNI-CAST WITHOUT SCROLLS**

All of the inscription will be cast directly on the background of the memorial. This type will apply to memorials when all have deceased and no scrolls are desired.

**• UNI-CAST SCROLLS**

Uni-cast scrolls are raised decorative plates that are cast directly on to the memorial. These types of scrolls cannot be removed from the memorial. Therefore this type of scroll can not be ordered pre-need. Uni-cast scrolls can be produced with full dates or just year dates. There is no charge for this type of scroll.

**• Tri-Scrolls**

Tri Scrolls are much like the Uni-cast scrolls, the given name and the birth year date scrolls are cast integrally with the memorial. However with Tri-Scrolls the birth year date is on a small tab below the given name. (The birth year date plate cannot be removed although it has screws on it.) A space is provided for installing a death date tab. The death date tabs are supplied at no charge if they are ordered within the current calendar year. An extra charge will apply when the death tabs are for non-current calendar years.
